

**"The course didn't just teach me to play; it taught me to be a soundbath practitioner in the real world."**

**Still deciding if this course is for you?**

Here's what Moira, a **Certified Soundbath Player™**, had to say after completing the **Group Soundbath Player™ Certification Course**. Moira finished certification in 2025 and participated in the **GSP Advantage** option.

*"I spent months hunting for soundbath training that wasn't either impossible to access or drowning in mystical language I couldn't*

*connect with. When I found Jamie and Robert's Group Soundbath Player™ Certification Course, I finally felt like I'd found what I was looking for: a program that treats the soundbath as a legitimate skill you can actually learn and master.*

*No chakras. No vague energy talk. Just real, practical technique on how to play and combine instruments with intention and skill. As someone who came in as a complete beginner - someone who'd always dreamed of playing an instrument but never had - this approach was everything.*

*The practice structure is brilliant. Every skill comes with multiple prompts that build progressively, giving you room to truly develop your abilities. I practiced about 3 times a week and got to experience that incredible feeling of watching myself get \*better\* at each small task. The platform makes it easy to track where you are, and the information is delivered in accessible, digestible chunks that kept me motivated.*

*But here's the game-changer: the course requires you to complete 10 public soundbaths with at least 5 participants each. When I started, I thought maybe I'd offer some free sessions to friends. This requirement pushed me out into the world - and everything shifted. I now have two standing monthly gigs, and I've been invited to play at retreats and for nonprofits.*

*The course didn't just teach me to play; it taught me to be a soundbath practitioner in the real world.*

*The instrument credit they offer is genuinely valuable - their instruments are quality, and Jamie and Robert's reputation in the community is solid. (They've toured the German facilities where artisan gongs are made over weeks by master craftspeople, and even helped Schlagwerk name their rain towers!) Mentioning The*

*Soundbath Center has opened doors I didn't even know existed, and even helped me make new pals in my local corner of the soundbath world.*

*The course took me about a year to complete - partly because those beautiful German gongs take 3+ months to arrive, and partly because I wanted to savor the learning process. Last month, while loading my instruments into a cab, the driver said, "Oh, the musician's life!" I laughed and said I wasn't a professional. He looked at me and said, "So you're a working musician?"*

*And just like that, I realized: \*Yes. I am.\**

*This course will meet you where you are and take you somewhere you might not have imagined possible. If you're ready to actually learn this craft - not just dabble, but truly develop your skills and step into offering soundbaths - this is it."*

– Moira, Certified Soundbath Player™, 2025

Moira's experience highlights one of the primary intentions of this course –

To help students develop real, effective playing skills and prepare them to offer sound baths professionally.
